

Biography Questionnaire

Below are questions which are intended to help you complete your biography with the PA History Society. They are not intended to duplicate the information found in the "Biographical Sketch Form". While the emphasis will be on your contributions to the history of the profession, it is also important to gather information about your life in general and the experiences in decisions that culminated in becoming a physician assistant and/or the champion of the profession. You do not have to answer all questions. You should be able to begin typing your answers under each question and the space will expand as needed when she had completed his questions, please forward them to me along with pictures, or biographical sketch form, and permission to use form. Once I have this information, I will begin to complete your biography. I may want to speak to you during this process in person or by phone in order to answer any questions you may have and to help me clarify and/or expand on your answers. Once I complete the biography, I will forward it to you for final editing and approval before submitting it to our archivist.

Thanks for your help in this,

Rich

1. Tell me about your family growing up in your family now.
2. What was it like when you grew up in terms of local community and or the world in general?
3. What we are interested in growing up?
4. What were the life events that led you to become a PA or a champion for the profession?
5. What is the most difficult thing you've done in your life? The toughest decision?
6. Aside from the joys of family and friends, of what you most proud?
